## POSTSCRIPT #1-- TO THE WHITE PAPER ON THE FAILURE AND FUTURE OF IRAQ

---

**I. RE: General Barry McCaffrey USA, (ret) and his Dec 07 After Action Report on Iraq,** "there is no central government functioning in Iraq". However, the three Sectors are functioning and growing in power.

### II. Further Newspaper reports:

Further evidence for the UIS (Union of Iraqi States—a la United Arab Emirates) was in the San Diego Tribune on Dec 15<sup>th</sup> about the Prince of Dulaimi (largest Sunni Tribal leader) taking charge in the Sunni region—Sheikh Ali Hatem Ail Suleiman al-Dulaimi—and his SAHWA—"an awakening of force, heart and spirit" from the Sectarian violence. He reportedly has 70,000 Sunni men under arms and is adding 35,000 more!

1. This may be the new **Sunnistan**.
2. The **Kurdistan** Region already has autonomy in accordance with the Iraqi Constitution.
3. And **Shiastan** is also emerging as an autonomous Region--as they are asking Sheikh Ali Hatem for information and advice on their own Sahwa Movement in the South to create **Shiastan** down there. In fact, another U-T article the next day, Dec 16, states that the Shiites are reforming the city of Najaf as their religious and political/governmental capital of Shiastan—Basra is the commercial capital

**In the face of no central government, this is becoming a reality no one wants to talk about.**

### III. King Abdullah 2007 Actions in the Middle East:

The first Middle East Peace meeting in a long time occurred in Egypt between the Israelis and the Palestinians (as set up by King Abdullah of Saudi Arabia)

The Bush run "Annapolis Meeting" to kick start the Middle East Israeli-Arab peace solution included all Arab nations (as led/directed by King Abdullah who got them to participate)

**When will we realize that King Abdullah of Saudi Arabia is THE key leader and President of the Arab League (12 Nations) and engage him as the #1 Middle Eastern Leader. This is a Middle Eastern issue instead of a US determined set of solutions**
